

The Virtual Orphanage is the creation of the Rose Charity. Through this project we are able to provide food, clothing, education, love, and opportunity to children in the 15 countries of the former Soviet Union and in America. The project creates

virtual adoptions for children who are *virtually orphans*.

Drug addiction, poverty, corruption, oppression, alcoholism, death, divorce, and other forms of social diseases have left millions of children to fend for themselves. Now you can help do something about it!

Drug addiction, poverty, corruption, oppression, alcoholism, death, divorce, and other forms of social diseases have left millions of children to fend for themselves. Now you can help do something about it!

Our financial support pipeline is

unique and provides a transparent conduit for your donation. From your hand to the children you want to help, *The Rose Charity* has put transparency into benevolence; allowing you to help manage the organization responsible for your child. The Rose Charity

www.therosecharity.org

The Rose family charity operates several Christian aid organizations in the US and abroad. Our goal is to promote health and education for fatherless children and widows according to the teachings of God's Holy Bible.

No child should have to grow up without a father. History proves that fatherless children, whether from death or social disorder, grow up without the special love and teaching that only *father* can give. Whether from death, divorce, or dysfunction, a fatherless child deserves special aid and protection-*he is special in God's eyes.*

"...the poor committeth himself unto thee; thou art the helper of the fatherless...and the oppressed, that the man of the earth may no more oppress".

Psalm 10:14, 18

"Pure religion...is this...to visit the fatherless and widows in their affliction...".

James 1:27

Helping children in America, Central Asia, and Europe

Since 1993, the Rose family has been helping the poor and the fatherless children inside the former Soviet Union. From Eastern Europe to Central Asia, The Rose Charity operates several aid organizations whose sole purpose is to promote spiritual and physical health.

The Rose Charity cooperates with its donors providing transparent opportunities in the areas of benevolence. Whether your desire is to give financially or of yourself; lending your talents for a certain project among a certain people, we work hard to earn your trust.

Our secret? We give you the ability to evaluate us throughout the giving cycle: From the donor to the child, we use 21st century technology to put you in the driver's seat of your donation.

Perhaps you are in a position to give of yourself; lending your talents and skills to one of our quarterly projects. Get in touch with us now to set up a meeting and discuss your particular burden. Together we can be more effective; overcoming corruption and oppression to help the fatherless, the poor, and the widows who are unable to help themselves

Helpers to the helpless

Since 1993, non-profit organizations were created inside the former Soviet Union to help needy children. Today these are: **World Support (Belarus), Russia Inland Mission (US), OFIYAT (Tajikistan), and Shelter the Children (Ukraine, Moldova, and Lithuania).**

A social crisis developed after the USSR collapsed back in 1991. Today, over 118 nationalities suffer under the corrupt and oppressed leadership that took power and created 15 independent countries. The Rose Charity is dedicated to giving relief to those who suffer in the wake of this social crisis.

With volunteers around the world, we provide training and education opportunities for the children needing help, and for volunteer workers interested in giving their talents and abilities to help.
